superior to all others on the grounds, will be displayed specimens of every line of manufacture in the Dominion, each branch having its own section. Samples of almost **every article known to modern civilization**, made by masters of the various crafts, are here exhibited by the leading manufacturers of the entire Dominion. Piano and organ men, woollen men, cloth-making firms, carpet makers, cotton factories, musical instrument makers, boot and shoe makers, furniture men, jewelers, watch cutlery producers, and, in short, exponents of every industry known to the country, have vied with each other to make the show in this building not only the greatest ever attempted, but a gigantic credit to Canada.

See Williams' Show Card Exhibit, Manfrs. Bldg. and 11 Richmond St. East

In a specially erected building there will be upwards of **30 different industries in operation**, showing process of manufacture of articles, which may be seen in the finished state exposed in the Manufacturers' Building.

Besides the above, all the buildings on the grounds will contain numerous and surprising exhibits, demonstrations, etc., etc.

Patents—Fetherstonhaugh & Co., Head Office, Toronto, also Montreal, Ottawa, Washington.

The Exhibition Band, Q. O. R., Toronto, the 48th "Highlanders" and the Victoria School Band, will throughout the day discourse music.

In the afternoon, in front of the Grand Stand, there will be an **Exhibition of Pacing Horses**, and a complete programme of attractions will be presented. The evening proformance will conclude with **Mr. Bolossy Kiralfy's** master spectacle "**A Carnival in Venice**" enlivened by a magnificent display of pyrotechnics.

MONDAY AUGUST 31st.

School Children's Day—This day will witness perhaps the greatest aggregation of boys and girls ever gathered together on the grounds. Notwithstanding that the day is set apart for children, the old folks will be none the less interested.

At 2.30 p. m., the **Women's Building** will be formally opened by **Mrs. Mortimer Clark**. Within this attractive structure the various interests of women will be represented. One of the new features of this department will be the "**Loan Exhibition**," which will contain **many articles of interest** connected with **Arts and Handicrafts**, among which will be specimens of the Irish peasant women's work and other articles, loaned by the **Countess of Aberdeen**.

Exhibition should create interest.

Women's Building, 10 to 12—Kindergarten. 2 to 3.30—Manual Training. 4 to 5.30—Program by Household Economic Association.

In the amusement direction there is plenty of variety; particular mention should be made of the exhibition of trotting Stallions, and Riccobono and his famous horse. This animal has been so trained that he will dress himself like a gentleman going out hunting, walk around the stage, lie down in bed, pull the clothes over him, and do many other things which it has previously been considered impossible to train a horse to do. Then, too, there are Galetti's Animals—trained monkeys and baboons, most interesting for the little ones to see.

The Band of the 48th Highlanders and the 57th Regiment Band of Peterboro' will supply music all day.

THURSDAY, SEPT. 10th

American Visitors' Day.—Every department of the Exhibition will be open from 8 a.m. till 10 o'clock.

All the resources of Canada to be seen at their best. Special attention should be directed to the Jubilee Presents. His Majesty the King has graciously directed that the Jubilee Presents of the late Queen Victoria be exhibited at the Dominion Exhibition. This magnificent collection of presents, undoubtedly the most superb ever got together in the world, will be on view **Free**—in a specially arranged department under the Grand Stand—the onlooker passing along through one entrance and out another. The collection includes presents from every country in the world, and are typical in richness, beauty and art of many people. In addition to the Jubilee Presents, there will also be on exhibition in the same building at the same side, by the gracious consent of the Dowager Marchioness, the presents received during their residence in Canada and India, by the Marquis and Marchioness of Dufferin and Ava, which in richness and artistic excellence are second only to the presents of the late Queen, comprising as they do many valuable and historical gifts from Canadian bodies and Princes of India.

"LLOYD'S (LONDON)—At the Royal Exchange, about 1693, a coffee house, kept by Edward Lloyd, Abchurch Lane, became a place of meeting of merchants. Here resort eminent merchants, and ship owners, and here are affected insurance on the ships and merchandise."
Hayden's Dictionary of Dates.

The above ancient institution is supported by subscribers who pay an annual fee, and its name has for many years been a synonym for sound underwriting and rectitude in business affairs the world over.

LLOYDS Plate Glass Insurance Co., of N.Y., is an incorporated Stock Company, having a paid-up capital of a Quarter of a Million Dollars, and in that respect is unlike the famous foundation whose name it bears. In point of reputation the Company is of equal rank; its name, in respect of financial strength, promptness and fair dealing have for years been a "household word" all over the continent. The Lloyds facilities for replacing broken Plate Glass "anywhere and everywhere," are of the very best. It has been established in Canada for eleven years, transacts the largest business in its line in the Dominion, and gives the best protection.
